

Altitude

Altitude, powered by Reckiapp

From your desk to the whole world, in one dashboard.

Salesforce-native reporting for recruitment. Climb the role hierarchy from individual to team, department, country and world - every dashboard regroups as you zoom, and every number drills into the full report.

What it does

The Altitude ladder

Individual, team, department, country and world - read straight from your Salesforce role hierarchy.

Drill into anything

Click a bar, slice, stage or day for the full report - sort, filter, add columns, export.

Ask in plain English

Type "drop outs by reason as a donut" and Altitude builds the report.

Live dashboards per persona

Consultant, hiring manager and director views out of the box - drag, resize and change any tile.

Insight on every tile

Fee trend, the weakest pipeline step, drop-out and termination risk in a briefing strip.

20 record types

Placements, interviews, calls, jobs and more - counted by owner, creator or either.

Pricing - one flat monthly fee, no per-user charges
