

Avalio

Avalio, powered by Reckiapp

See every candidate's month – and fill the gaps – in one grid.

A Salesforce-native availability calendar for staffing agencies. See every candidate across a whole month, split into mornings and afternoons, with booked days locked and holidays, sickness and unavailability visible weeks ahead.

What it does

A month in one grid

AM and PM half-days for every candidate, with booked days locked and a frozen name column.

Set availability in one click

This day, a date range or a repeating pattern - with a live count of what will save before you commit.

Bulk updates

Tick a group of candidates and set a month in one action. Booked days are skipped automatically.

One record per day

Each change is one Employee Request per day, so Orchestra and your workforce system read exactly the same data.

Candidateslide-out

Next 14 days, attendance, hours, recent shifts and client rankings - with email, SMS and call logged.

Configured by admins

Types, colours, columns, filters and which candidates load - all without code.

Pricing - one flat monthly fee, no per-user charges

Team

Up to 25 users

£450/mo

Business

Up to 60 users

£900/mo

Enterprise

Unlimited users

£1,500/mo
from

One-off implementation from **£2,500** - live in 2-4 weeks. Annual billing shown, excluding VAT. Salesforce and Bullhorn licences not included.

Works with

PLATFORMS

Bullhorn Workforce Management

Runs inside Salesforce - your data stays in your org

Live in a sandbox first, then production
