

Canvas

Canvas, powered by Reckiapp

Everything your workers need – without phoning a consultant.

Canvas is the worker app for candidates, contractors and temps. It extends the Bullhorn Connect mobile app and runs in a desktop browser too, so workers manage their profile, compliance, applications, shifts, availability, timesheets, expenses and messages themselves - and everything writes back to Bullhorn.

What it does

Needs your attention

A live to-do list on the dashboard: renew a document, submit a timesheet, accept a shift offer.

Compliance, synced

Upload or renew documents in the app - they go straight to ComplyTrackr for review.

Shifts and availability

Accept or decline offers, and share a four-week availability planner in one tap.

Timesheets and expenses

Hours worked out live, submit to the client, and claim mileage with a receipt.

Jobs and applications

Browse, save and apply - then track every application through five stages.

Your agency, your brand

Industry skins for tech, education, medical and construction, with your colour and dark mode.

Pricing – one flat monthly fee, no per-user charges
