

ComplyTrackr

ComplyTrackr, powered by Reckiapp

Never lose a booking to an expired check.

A compliance console for candidates and companies. Assign packages, approve or reject items with a reason, manage company documents and build the items candidates complete in the portal.

The screenshot shows the Reckiapp ComplyTrackr interface. At the top, there's a navigation bar with 'Reckiapp' and a search bar. Below it, a sidebar shows 'Sarah Mitchell' and 'Healthcare - Standard Onboarding'. The main area displays a candidate profile for Sarah Mitchell, a Registered Nurse (Band 5), with a compliance status of 50% (4 of 8 approved) and an 'Action needed' status. Below the profile, there's a 'ComplyTrackr' section with a filter for 'Healthcare - Standard Onboarding'. It shows a list of compliance items: 'Right to Work' (Awaiting Approval), 'Proof of Address' (Approved), and 'Bank Details' (Awaiting Approval). A detailed view of the 'Right to Work' item is shown on the right, including the package 'Healthcare - Standard Onboarding', collection method 'Field entry + File upload', and submission date '04/10/2026'.
