

Extendify

Extendify, powered by Reckiapp

Extend, re-rate or credit a placement in one guided action.

Config-driven placement actions on the Placement record. Extensions, rate changes, credits and early terminations fill their defaults the way your rules do, and keep the placement hierarchy and deal value in step.

The screenshot shows the Reckiapp interface with the 'Placements' tab selected. The main record for placement PL-005103 is displayed, showing details like Candidate (James Okafor), Company (Harbourside Health Group), Job Title (Senior Project Manager), Start Date (01 Sep 2026), End Date (30 Nov 2026), Charge Rate (£560.00 / day), and Approval Status (Approved). Below this, the 'Extendify Actions' section lists four available actions: Extension, Rate Change, Credit, and Early Termination, each with a brief description and a 'Creates a linked placement' or 'Updates this placement' note. To the right, the 'Placement Hierarchy' section shows a tree of linked placements, including PL-004812 (Master), PL-004958 (Extension), PL-005103 (Rate Change), and PL-005120 (Credit), with their respective deal values and statuses.

What it does

Four config-driven actions

Extension, Rate Change, Credit and Early Termination - each set up in the action builder.

Smart defaults

Start date is the source end plus one, and rates come from the current rate card.

Placement hierarchy

Master, extensions, rate changes and credits in one tree, with deal value, credited and net.

Rate cards carried across

The current rate card is copied to the new placement as a Draft.

Safe on older records

Opening an older placement locks the actions, with a Go to latest button.

Pricing - one flat monthly fee, no per-user charges

Works with

Team

Up to 25 users

£350 /mo

Business

Up to 60 users

£650 /mo

Enterprise

Unlimited users

£1,100 /mo
from

One-off implementation from £2,500 - live in 2-4 weeks. Annual billing shown, excluding VAT. Salesforce and Bullhorn licences not included.
