

FormBuilder

FormBuilder, powered by Reckiapp

Forms that write straight back to Bullhorn – with no extra Salesforce licences.

FormBuilder lets agency staff design branded forms inside Salesforce with no code, send them to any candidate or client contact, and write the answers straight back to Bullhorn. It replaces PDFs, emailed Word forms and retyping for onboarding, job briefs, right to work checks, interview feedback and timesheet queries.

What it does

No extra licences

Contacts fill forms from a secure single-use link - no community licences needed. Experience Cloud login is optional per form.

Drag-and-drop builder

Text, choice, date, file upload, signature, table and layout fields, with branding and no code.

Writes back to Bullhorn

Every answer maps to a Bullhorn field and is written in one step - files and signatures saved to Vault.

Send and chase

Email or text a personal link, with expiry and automatic reminders until it is done.

Preview on any device

See exactly what the contact sees, on desktop or phone, with validation built in.

Responses you can trust

Track every send from opened to written, then review the answers before they go into Bullhorn.
