

# Kindra

Kindra, powered by Reckiapp

## Catch drop-outs before they happen.

Kindra cuts early drop-outs by checking in with every new starter and their hiring manager at day 1, week 1 and month 1. Each check-in is scored out of 5, and low scores are flagged so the consultant can act before the placement fails and a rebate is owed.

The screenshot shows the Kindra dashboard within the Reckiapp interface. The dashboard includes a search bar, navigation tabs (Home, Candidates, Contacts, Accounts, Jobs, Placements, Kindra, More), and a main section for Kindra. The main section has buttons for 'New starters', 'Hiring managers', 'All', 'At risk', 'Healthy', and 'Send 3 due check-ins'. Below these are four counters: '3 Check-ins due today', '3.2 Average latest score, out of 5', '1 High drop-out risk', and '0 Flagged to consultants'. A table lists new starters with columns for 'New starter', 'Started', 'Latest score', 'Next check-in', and 'Risk'. A detailed view for 'Callum Reid' shows a 'High risk' status and a 'Check-ins' timeline with scores for Day 1 (4 of 5) and Week 1 (2 of 5).

### What it does

#### Two audiences

Switch between New starters and Hiring managers.

#### Risk filter

All, At risk (high or watch) and Healthy.

#### Counters

Check-ins due today, average latest score, high drop-out risk count and the number flagged to consultants.

#### Starters table

Shows start date, latest score as five coloured dots, next check-in and risk pill: High risk, Watch, Healthy or No data yet.

#### Risk scoring

A latest score of 2 or less is High risk, 3 is Watch, and 4 or 5 is Healthy.

#### Check-in timeline

For the selected person, each stage shows its score and the person's own comment, or its due or scheduled date.

### Pricing - one flat monthly fee, no per-user charges
