

Get paid on time, every time.

Ledgra brings credit control inside Bullhorn. It shows aged debt, compares client exposure with credit limits, and chases overdue invoices automatically. Consultants are stopped from placing more workers with a client that is over its limit.

What it does

Counters

Total outstanding, overdue value, debtor days (weighted by value) and the number of clients on stop.

Invoice list

Sorted most overdue first, with amount, due status and invoice status (open, promised, disputed, paid).

Credit limits

Exposure is unpaid invoices plus 2 weeks of live billing not yet invoiced, shown against the limit with a bar and a status: within, near (over 80%), over limit, or on stop.

Aged debt bar

A stacked bar and five band tiles: not yet due, 1 to 30, 31 to 60, 61 to 90, and over 90 days.

Invoice actions

Send reminder; log a promise to pay (date and who promised, which pauses chasing until then); dispute (pauses chasing); mark paid.

Limit actions

Credit check through a credit agency, and change limit (limits over £50,000 go to the finance director for approval).

Pricing - one flat monthly fee, no per-user charges

Team

Up to 25 users

£450/mo

Business

Up to 60 users

£900/mo

Enterprise

Unlimited users

£1,500/mo
from

One-off implementation from £3,500 - live in 2-4 weeks. Annual billing shown, excluding VAT. Salesforce and Bullhorn licences not included.
