

Novara

Novara, powered by Reckiapp

Redeploy contractors before their assignment ends.

Novara keeps contractors billing by finding their next role before the current assignment ends. It watches placement end dates, matches each finishing contractor against open jobs, and lets the consultant shortlist, submit, extend or redeploy from one screen.

The screenshot shows the Novara web application interface. At the top, there's a navigation bar with the Reckiapp logo, a search bar, and various menu items like Home, Candidates, Contacts, Accounts, Jobs, Placements, and Novara. The main header area displays the Novara logo and a description: 'Redeployment radar, powered by Reckiapp'. Below this, there are filters for 'Assignments ending in' with options for 14 days, 30 days, and 60 days, along with a 'Run match now' button. A summary section shows four key metrics: 4 Contractors finishing in window, 4 With at least one 80%+ match, 0 Submissions sent from Novara, and 0 Kept billing (redeployed or extended). The 'Ending assignments' table is visible, with columns for Contractor, Client, Ends in, Matches, and Status. A detailed view of a contractor, Priya Shah, is shown on the right, including their role (Senior Java Developer), current rate (£575/day), and skills (Java, Spring Boot, AWS, Kafka). Below this, a 'Matched open jobs' section highlights a 'Lead Java Engineer' role at Meridian Insurance with a 94% match.

What it does

End-date window

Chips for 14, 30 and 60 days filter the list of finishing contractors.

Live counters

Contractors finishing in the window, those with at least one 80%+ match, submissions sent from Novara, and contractors kept billing (redeployed or extended).

Ending assignments table

Shows each contractor's name, role, client, days left, match count and status: At risk, Submitting, Extended or Redeployed.

Match panel

For the selected contractor it shows their skills, current rate and matched open jobs.

Shortlist and submit

Add a contractor to a job shortlist, or submit them to the client.

Extend assignment

Sends an extension request to the current client and marks the contractor as Extended.

Pricing - one flat monthly fee, no per-user charges
