

Sealo

Sealo, powered by Reckiapp

Offers and contracts out the door – and signed.

Sealo builds offer letters and contractor schedules from approved templates, checks counter-offer risk before sending, and tracks every offer through e-signature. When an offer is signed, it creates the placement in Bullhorn.

What it does

Offer builder

Pick the candidate and a template, then set salary or rate, start date, notice, and probation or initial term.

Template matching

Only active templates of the right kind (permanent or contract) are offered.

Live preview

The letter is rebuilt as you type, with the right wording for permanent, limited company or PAYE contracts, and signature lines for client and candidate.

Counter-offer check

Four questions: already resigned, other offers in play, a clear reason for leaving, and counter-offer discussed.

Save or send

Save as draft, or send for e-signature.

Tracker

Stage tiles for All, Draft, Sent, Viewed, Signed and Declined, with counts.
