## Every file, version and attachment on a record – in one place.

Files and attachments on any record, together and newest first - with filters, search, inline preview for images and PDFs, version history and uploads.

### What it does

#### Files and attachments together

One list, newest first, with All, Files and Attachments filters and search.

#### Inline preview

Images and PDFs open right on the record - no downloads.

#### Version history

See every version and upload a new one - blocked for attachments, as in Salesforce.

#### Upload and delete

Drop new files straight onto the record.
